DETAILED ACTION

Response to Amendment

1. Applicant's response to the office action filed on December 18, 2007 has been entered. The claims pending in this application are claims 11-16 and 19-30 wherein claims 20, 23-25, and 28 have been withdrawn from the examination due to species election mailed on February 22, 2007. Rejection and /or objection not reiterated from the previous office action are hereby withdrawn in view of applicant's amendment filed on December 18, 2007. Therefore, claims 11-16, 19, 21, 22, 26, 27, 29, and 30 will be examined.

Information Disclosure Statement

2. EP 13147783-A1 in the information disclosure statement filed on December 1, 2006 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. Note that applicant does not address this issue in the response filed on December 18, 2007.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1634

4. Claims 11-16, 19, 21, 22, 26, 27, 29, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Claim 11 or 12 or 13 is rejected as vague and indefinite because, in view of step a), it is unclear that a plurality or pool of nucleic acid molecules in step a) are second extension products or not. Furthermore, since step a) does not require that said second extension product is a double stranded nucleic acid, if said second extension product is a single stranded, said second extension product must comprise complementary strand of said first and second 3' and 5' region but not comprise said first and second 3' and 5' region as recited in step c). Please clarify.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. No claim is allowed.
